FATHIMA MISNA T.P

Malappuram | fathimamisnatp@gmail.com | 8129366721 | LinkedIn:fathima-misnatp | GitHub:Misna-tp

Flutter Developer with 9 month of internship experience developing and maintaining cross-platform mobile applications using Flutter and Dart. Experienced in responsive UI development, REST API integration, state management, authentication, navigation, debugging, and application deployment. Hands-on experience working with Riverpod, Provider, Dio, GoRouter, Node.js, Express.js, and MySQL. Comfortable working in collaborative development environments, understanding project requirements, developing features, integrating backend services, and troubleshooting application issues throughout the development lifecycle

Experience

Flutter Developer Intern

JANUARY 2026 – SEPTEMBER 2026 | OneByZeroLabs | Pantheerankavu, Kozhikode

- Developed and maintained cross-platform mobile application features using Flutter and Dart.
- Built responsive and user-friendly interfaces for real-world business applications.
- Integrated REST APIs and connected frontend features with backend services.
- Implemented application functionality using Riverpod and other state-management approaches.
- Worked on authentication, navigation, data handling, and feature-specific application workflows.
- Debugged application issues, fixed bugs, and improved existing functionality based on project requirements.
- Collaborated with developers and team members throughout feature development and testing.
- Used Postman and Swagger for API testing, request validation, and troubleshooting during application development.
- Handled application deployment and prepared builds for internal and closed testing through Google Play Console.

PROJECTS

Crew – Event & Staff Management Application

- Contributed to the development of a cross-platform event and staff management application using **Flutter and Dart**.
- Developed responsive UI screens and interfaces for event, staff, and equipment management workflows.
- Integrated **REST APIs** and application services to support core application functionality.
- Managed application state using **Riverpod** and implemented navigation using **GoRouter**.

Boutique – Boutique Management Application

- Developed responsive Flutter user interfaces for customer, order, payroll, expense, invoice, and staff management.
- Integrated REST APIs provided by the backend team to manage and synchronize application data.
- Implemented authentication and dashboard features, including business summaries for revenue, orders, and payments.

TaskFlow – Task & Project Management Application

- Developed the Flutter frontend for a task and project management application with responsive user interfaces.
- Independently developed responsive UI screens based on project requirements and wireframes.
- Built screens for project management, tasks, notifications, user profiles, and application settings.
- Integrated REST APIs using **Dio** and implemented scalable state management using **Riverpod**.
- Developed secure authentication and password recovery flows with deep linking support.
- Implemented responsive layouts and light/dark theme support using **Flutter ScreenUtil**.
- Prepared the application for internal and closed testing through Google Play Console.

Book Management App

- Developed a Flutter application for managing books with authentication and CRUD functionality.
- Built responsive screens for login, registration, and book management.
- Integrated REST APIs for authentication and data operations.
- Used Provider for state management.
- Worked with Node.js and MySQL for backend-related application functionality.

Skills

Mobile Development: Flutter, Dart, Responsive UI Development, App Deployment

State Management: Riverpod, Provider

API & Backend: REST APIs, Dio, Node.js, Express.js, MySQL

Authentication & Navigation: Authentication, Deep Linking, GoRouter

Development Tools: Git, GitHub, VS Code, Android Studio, Postman, Swagger

Other: Debugging, API Integration, Team Collaboration

Education

2024 – 2025
Full-Stack Application Development | Haris & Co Academy | Calicut

2021 – 2024
Bachelor of Arts in Functional English | Government Arts and Science College | Kondotty
